THE MAJOR RESOURCE COMPANY PROFILE

WHY WE WENT MAJORLY INTO RENEWABLE ENERGY

ABOUT OUR COMPANY

OUR HISTORY

The Major Resources Ltd,(RC:1434412). was started with a vision to popularize roof-top solar power as key source of power. Founded by a group of reputable Engineers, None having less than 10 years of experience in the Power Industry. Today, The Major Resources solar is one of the leading renewable energy companies in providing sustainable power solutions. We provide end-to-end solar solutions. From a very small beginning we are able to reach to a sizeable company size. We are constantly investing time and funds to expand our infrastructure and upgrade processes to place us well for growth. We have also built the processes to help us keep the productivity high and cost-structure low. Our engineers have strong background in solar field and are great team-players. Be it small or large-scale roof-top solar systems, our engineers have huge experience in complete project design, execution and maintenance. The customer-centric & innovative company culture and strong team makes us the first-choice in the rooftop solar market.

Currently, we have a strong presence in the FCT, Edo State & surrounding areas and plan to expand to the other parts of the country and beyond.

OUR PRINCIPLES

At The Major Resources Ltd, our mission is to give power independence to our customers at affordable price. And, for our solar power systems and plants, the service is free for a stipulated period. The combination of quality products and comprehensive service has helped us to grow delighted customer base. we've stuck to some core principles that we hope have served you well:

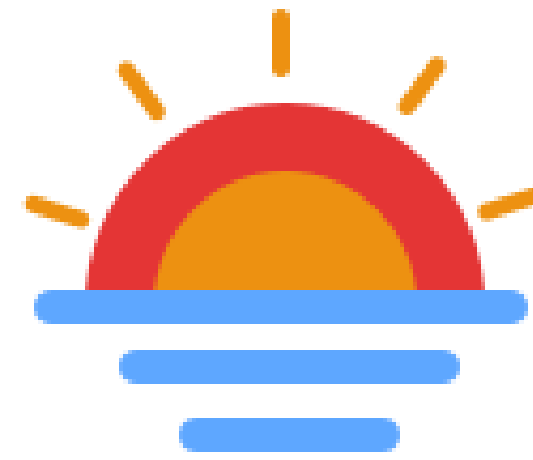

- Always tell you the facts. It's the only way you can make informed decisions.
- Never take commission. It's the only way we can stay 100% impartial.
- Always improve. It's the only way to make sure our service is as good as it can be.
